

GLOBAL STUDENT SUCCESS FORUM 2024

AGENDA

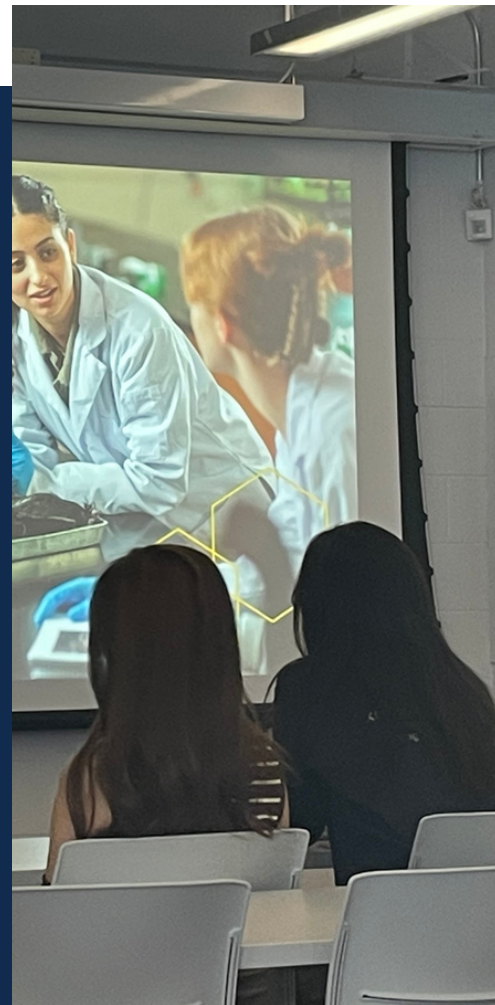

GLOBAL STUDENT SUCCESS FORUM

The Global Student Success Forum (GSSF) is an annual virtual event hosted by Rosdale International Education Inc. and joint with global leading universities to advocate transformative education and promote sector collaboration between K-12 and higher education.

GSSF brings together speakers from the most prestigious universities such as Oxford, National University of Singapore, and University of Waterloo to speak to educators, students, and parents about the future of education.

This year, we bring together keynotes and industry panel discussions on offering invaluable insights on the future of global education and guidance on how to successfully navigate the dynamic admissions terrain of top universities. Join us live on YouTube @RosdaleEDU Tuesday, October 29th, 2024 at 8:00AM EDT.

PANEL SPEAKERS #1

In today's rapidly evolving academic landscape, securing admission to prestigious global universities has become more competitive and complex than ever before.

With shifting priorities and policies, and evolving criteria, navigating the admissions process demands strategic insight and foresight.

Join this expert panel, offering invaluable guidance on how to successfully navigate the dynamic admissions terrain of top universities in the United Kingdom, Canada, Germany and Hong Kong and learn how the Rosedale OSSD is preparing students entering the most competitive universities through global transformative education.

Kong Polytechnic University

Sagebelle Wu, Assistant
Director, Business
Development & Partnership
Management, University of
Toronto

Stephanie Byer, Director,
University Partnerships &
Strategic Initiatives, Rosedale
International Education

PARTNER INSTITUTIONS

PANEL SPEAKERS #2

Teachers are faced with an impossible task: they must educate students according to their job descriptions and the requirements set by the education system, which typically include ensuring students pass standardized tests.

However, these standards and test scores frequently fail to reflect the essential competencies students need to remain competitive in rapid evolving AI driven world.

Join this panel to hear conversations that explore how to build education systems that prepare young people for success in post secondary education, the workforce, and civil society, it is becoming increasingly challenging with the rise of AI.

Tina Hobbins, Educational Developer, University of Waterloo

Tinuade Olufolabi, Principal, Maple Canadian College, Nigeria

Pam Turnbull, Academic Advisor, Rosedale International Education

Lucy Yan
International Baccalaureate Consultant, Shu Ren International School

Asim Sayed, Head of Teacher Development, Rosedale International Education

ABOUT US

Rosedale International Education Inc. (RIE) is a global education and technology provider based in Toronto, Canada, with a mission to reshape the future of worldwide education.

RIE owns and operates Rosedale Global High School, which partners with international schools and government organizations to deliver the Canadian education curriculum locally, using collaborative in-person programs and digital technology.
